

OmniClaim Strengthens Leadership Team with Appointment of Joseph Alberta as Senior Vice President

Addition of experienced sales leader strengthens company's mission of delivering its high-performing payment integrity and overpayment recovery program to payers nationwide.

Boston, Mass., July 18, 2017 – [OmniClaim](#), a leader in payment integrity and overpayment recovery, today announced it has strengthened its leadership team with the addition of Joseph Alberta as Senior Vice President of Sales. In his new role, Alberta will be responsible for developing and executing direct and indirect sales strategies to ensure OmniClaim's continued growth and innovation in the marketplace.

"Joe is a dynamic sales leader who will help us continue to scale our business and expand our payment integrity program," said Dave O'Donnell, Chairman and Chief Executive Officer of OmniClaim. "He takes a hands-on approach and has a proven track record of executing and driving consistent, measurable results. We expect Joe to play a key role in OmniClaim's continued evolution."

Alberta is the second strategic hire for OmniClaim following the addition of Nadine Hays as Chief Growth Officer in April of this year. With close to 20 years' experience in the healthcare technology space, Alberta joins OmniClaim from Verscend, where he was Vice President of Payer and Employer Enterprise Sales. A graduate of the College of the Holy Cross, previous roles have included Vice President of Population Health Sales at Verisk Health and Regional Sales Director at Ingenix Inc. (now OptumInsight).

"Joe brings with him a significant knowledge of market trends and needs and an acute understanding of the challenges faced by our clients and prospects," said Tim O'Donnell, President and Chief Operating Officer of OmniClaim. "We are very excited about the addition of both Joe and Nadine and how that positions OmniClaim for ongoing growth and expansion in many areas. We look forward to leveraging their experience and insight as we continue to innovate and deliver the highest possible value to our clients by recovering the most savings available."
